The complete pre-primary series that includes phonics to teach English as a second language to younger learners.

Power Pets and Power Phonics comprise the ideal course to help your students learn English.

This flexible three level English series is designed for very young learners. It is organized to cover the basic concepts and topics taught in the pre-primary curriculum as well as the 44 sound in English. Power Pets and Power Phonics incorporate the latest technological teaching tools with traditional approaches to make learning fun for students.

Broken down into flexible 30 min. sessions, the adventures of Diggy Dog, Kitty Cat, and Marty Mouse will keep learners focused in class for hours. Teachers are offered a wide range of materials for extension and reinforcement that help to fit any time table while consolidating learning. Across three levels the course covers all the sounds learners need to speak English clearly. Power Phonics follows methodology based on synthetic phonics - current practice in the UK - adapted and developed for the Spanish context. Activities help learners improve their pronunciation through fun animated stories, games, chants, songs, pop-outs, and worksheets, all with a focus on the 44 sounds in English.
