Cinema Today is a survey of world cinema and the films that have dominated our screens over the last thirty years. Written by Edward Buscombe, academic and leading authority on Western films, Cinema Today marks the key turning points in the film industry, identifies important trends and assesses the work of film-makers who have made a significant contribution to the medium since 1970. Fully illustrated, Cinema Today is informative, comprehensive and up to date, and provides a unique resource for academics, students and anyone with an interest in the moving image and the film industry.
